

Brett en papirbåt!

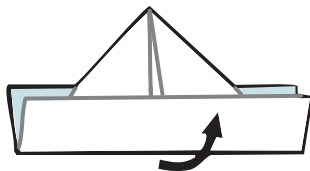

1. Brett et A4-ark i to på midten, toppkant mot bunnkant.

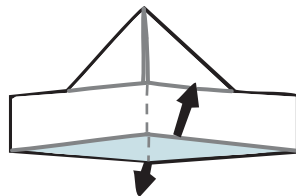

2. For å finne midten, bretter du så arket i to en gang til, motsatt vei, og bretter ut igjen.

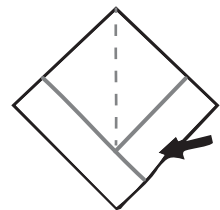

3. Brett de øverste hjørnene inn slik at de møter den loddrette linjen.

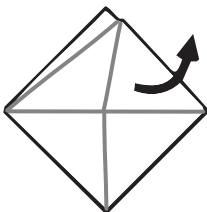

4. Brett flappene opp på begge sider.

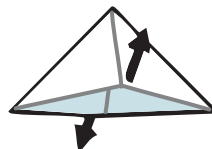

5. Åpne opp trekanten helt og brett den sammen igjen motsatt vei...

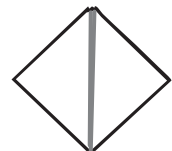

6. ...til den danner en firkant. Legg hjørnene på flappene over hverandre.

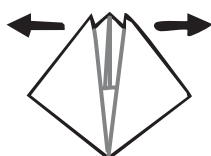

7. Brett opp på begge sider...

8. ...slik at det blir en trekant. Åpne opp trekanten helt en gang til...

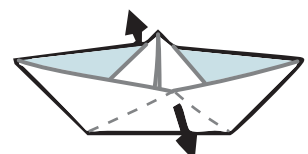

9. ...og brett den flat igjen motsatt vei slik at den danner en firkant.

10. Dra hjørnene utover

11. press flat

12. Åpne opp og form båtfasong. Ferdig! Nå kan båten din sjøsettes!
